Why choose Asta Easyplan?

Asta Easyplan allows you to share files with Asta Powerproject, Primavera and Microsoft Project – opening up the opportunities available to your organisation. This also makes Asta Easyplan an effective and affordable option for managing smaller projects within a larger, more complex programme managed within Asta Powerproject.

- Draw activities directly onto a bar chart
- Link tasks to logical order of activities
- Apply duration, resources and progress to activities
- See a clear graphical progress line for accurate progress tracking

Training

A one-day training course is available if you want some help to get started. This covers all aspects of the software's functionality with a particular emphasis on the time-scheduling aspects of the software. On completion of the course, you will be able to create and structure new projects, progress projects effectively, set up colour code libraries and print out a project with annotations. For more information or to check course availability please visit: **astapowerproject.com/asta-easyplan-training**.
